Re: CV, Inc.  
Engineer of Record  
12502 Hawks Nest Lane  
Germantown, MD 20876

To Whom This May Concern:

The purpose of this letter is to provide a strong recommendation on behalf of CV, inc. CV, Inc. took over the design completion and permitting of the "Track and Structure Storage Yard" Project for WMATA in 2010-11. The project is in final stage of construction.

I was personally involved in working with CV, Inc. on a regular basis for this project and found them to be technically competent, highly responsive to the Owner, and knowledgeable of approval and permitting requirements. The involvement of the principal of the firm, Mr. Chinmay G. Vyas, PE, CFM, LEEDap, in every critical element of the project during design and construction, has made this project a very successful one and handled very professionally and expeditiously.

CV, Inc. is currently working on several WMATA projects through our BUS-1 contract and WMATA would highly recommend CV, Inc. to any commercial, private, municipal, federal agency or any other entity requiring professional services.

If additional information is required, please do not hesitate to contact me at (202) 962-1549.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Yun', followed by a horizontal line.

Chris Yun, IRPG  
Construction Engineer  
WMATA
